Intarsia Butterfly

Overview

Wood Choices

The Wood used in the picture above is 3/4" Walnut for body and darker parts of the wing. 3/4" Western Cedar was used for all the internal wing parts. Of course, you can use any wood type you would like. You can paint, stain or leave the wood natural to achieve the desired look you are looking for.

Bent Paperclips (Painted Black)
Apply glue and insert into 1/16" drilled holes
